

Weybridge in Bloom is a community project aimed at increasing pride in the local Weybridge community. Through this initiative, we encourage residents and businesses to get involved and make Weybridge a brighter, cleaner and greener place in which to live, work, and do business.

Weybridge in Bloom helps in getting people together; improving their local environment and creating spaces that are a source of pleasure and pride for people of all ages. This community group is dependant on donations and grants to run the planting and other community activities through the year.

We would like to invite business to join us by making an annual donation to support our initiative.

In return, for a minimum donation of £50 we will include your business details on our website and will also run year round promotion via our social media. In addition, we will advertise your brand on our display board during the local events that we participate in Weybridge.

We would be grateful for your financial contribution and strive to make a difference to your business.

You can make payment directly to our Bank account 93635147 - Sort code 20-42-76
Weybridge in Bloom.
