

Weybridge In Bloom - Annual Sponsorship

Weybridge in Bloom is a community project aimed at increasing civic pride in the local Weybridge community. Through this initiative, we encourage residents and businesses to get involved and make Weybridge a brighter, cleaner and greener place in which to live, work and do business.

Weybridge in Bloom achieves this by getting people together; improving their local environment and creating spaces that are a source of pleasure and pride for people of all ages. This community group is dependant on the generosity of local businesses and residents who support us through donations and grants to run the community activities through the year.

Each year, we are looking for sponsorship of £500-£1000

In return, we will promote your business:

- On our homepage as the main sponsor
- Include you in our year round promotion on our social media
- Advertise your brand on our display boards during the various local events that we participate in Weybridge
- Have your logo on our hi-vis vests as our sponsor

We will be grateful for your financial contribution and strive to make a difference to your business.
